EEK PROMOTED IN OFFICERS RESERVE

CORPS OF UNITED STATES AIR SERVICE

MADE A 1ST LIEUTENANT

Receives Promotion as Operations Officer in 390th Attack Squadron for Period of Five Years

L. M. Eek today received from the office of the adjutant general of the United States at Washington, his appointment as first lieutenant in the officers reserve corps of the air service of the United States Army. This appointment came as a result of a series of examinations which Mr. Eek took in Chicago on Armistice Day.

Mr. Eek has been a commissioned officer in the reserve corps but until today he was rated as a second lieutenant. His new appointment came this morning.

According to him all that is now necessary is for him to forward his acceptance, which he will do immediately. The appointment is for a period of five years, however before that period is up he will take further examinations for a higher promotion.

In the air service the officers work up one step at a time and the advancement is based on the period of service.

Lieutenant Eek was appointed as Operations Officer in the 390th Attack Squadron. The duties of this office is generally done by a captain, but Mr. Eek received the appointment. As an officer in an attack squadron, the dangers in time of war are greater than in some of the other branches of the air service.

An attack squadron flies along the ground, about 100 feet in the air and attacks troops in trenches or in marching order. The speed at which these squadrons travel is 120 miles per hour. It is far more dangerous to fly along just 100 feet in the air, where in reach of rifle, pistol and machine gun fire than it is to fly up more than 1000 feet in the air.

Also, in case of trouble it would be harder to land the plane from such a slight elevation without a mishap.

Lieutenant Eek will go to Rantoul, Ill., next summer to Chanute Field for a two weeks period of flying. He was at this field last summer. In addition to going to school at Chanute Field he is taking a correspondence course which the government provides for its reserve officers. This is necessitated by the fact that new things are being developed in the air service each day and the reserve officer must keep posted on them.

As a commissioned officer Lieutenant Eek will be entitled to go to any field in the country at any time and take a plane and fly. This privilege is allowed all reserve officers in the air service.

In case of war or a calling out of the troops, Lieutenant Eek would immediately become a regular officer in the army as would all of the commissioned officers of the reserve corps.

TIRES GOING UP SAYS H. W. KRAMER, BACK FROM K. C.

Maryville Tire Man Returning From Tire Meet, Says They Will go Up 15 Percent.

The price of tires is going up. This statement was made this morning by H. W. Kramer, who returned last night from Kansas City, where he has been for two days in a conference with the General Tire & Rubber Co. Mr. Kramer says that the price of tires will advance ten or fifteen percent about the first of January.

In the past sixty days rubber has doubled in price and is now selling at less than the actual cost of production. According to Mr. Kramer it cost around thirty cents a pound to manufacture rubber at a reasonable profit and for the past year it has been selling at twelve cents a pound.

Within the last two months the price has jumped from twelve to twenty-six cents and is still climbing.

SEN. ELECT WHITECOTTON WILL URGE REDUCTION IN EXPENSES

New State Senator From Paris Favors Abolition of Many Useless Commissions and Offices.

Jefferson City, Dec. 15.—The abolition of the state tax commission, radical reductions in the public service commission and abolition of many minor departments and offices, is the plan of James H. Whitecotton of Paris, in the coming Fifty-Second Assembly. Senator Whitecotton was in the city today making arrangements for quarters during the session, and declared his purposes as such.

"It is high time to start abolition of a lot of commissions and offices that have been springing up with alarming regularity the past few years. People are tired of high taxes and are demanding that useless employees be taken off the state's payroll. I have been in touch of late with members of both bodies of the legislature and every one expressed himself in favor with doing away with the many useless commissions and offices."

ORRSBURG RABIES CAUSE QUARANTINE

DISEASE PREVALENT AMONG DOGS, HORSES AND HOGS.

PROCLAMATION BY JUDGE

County Judge, E. T. Bailey Issues a Quarantine for Four Districts in Vicinity of Orrsburg.

Dr. H. S. Wilson of Jefferson City, state veterinary, was in Maryville today and accompanied by Dr. J. L. Felix, deputy state veterinary, visited the Orrsburg community to investigate the disease known as rabies prevalent among dogs, horses and hogs in that community. Dr. Wilson says the condition in that community is so serious as to warrant the necessity of several people taking the Pasteur Treatment.

A quarantine proclamation was issued by Judge E. T. Bailey of the county court this afternoon ordering that each and every owner, or person in charge of any dog, or dogs within the limits of Snow Ball, Common Sense, Long Branch, Champaign, and Wilcox (87), school districts to either kill or impound every dog owned or for the time possessed by him, or have such dog or dogs immunized. The order of the quarantine is effective from today for a period of sixty days. Any violation of the order shall subject the offender to a fine of not less than $100 or more than $500. The proclamation is published elsewhere in this paper.

Raymond Hilton, who was bitten by the mad dog, is in Maryville taking treatment under Dr. Vilas Martin. Hilton is not sick but the treatment is being given him as a preventative against any possible development from the bite. The head of the mad dog was sent to St. Joseph by Dr. Felix and an examination proved beyond question that he had the rabies. Dr. Felix received his report of the St. Joseph examination today.

Dr. Wilson issued the following statement this afternoon:

"It is a well known fact that several dogs, horses, and hogs have been afflicted with the disease known as Rabies, in and around the vicinity of Orrsburg. The condition is even so serious as to warrant the necessity of several people taking the Pasteur Treatment. In order that people who are not fully acquainted with the causes, symptoms and effects of Rabies may be enlightened upon the subject, I deemed it wise to make a personal investigation of the conditions existing in and around Orrsburg in order that the people might be interested with the necessary information and directions as to the control of the disease.

"Rabies is an infectious disease, affecting virtually all classes of animals, even extending its ravages to the human race. The disease is contracted almost entirely through the medium of a bite inflicted by the animal affected. Though it is possible for a human being to contract the disease by drinking the milk of a cow ill of the malady. However, infection from such a source is the exception not the rule.

"The law enacted by the last General Assembly prescribes that when an outbreak of rabies occurs in a given community that the County Court has the authority to place a rigid quarantine upon one or more school districts in which the outbreak exists, in order to control the disease. The law furthermore prescribes that all exposed dogs must be killed, confined or immunized. Killing is the safest procedure when dealing with common cur dogs. A dog that has any valuation at all should be confined for a period of sixty days or immunized. Suffice it to say, that we have a surplus of worthless cur dogs in all counties of our fair State.

"The County Court of Nodaway County will immediately place a quarantine on several school districts in the Orrsburg vicinity. This quarantine will be rigidly enforced until all danger of any future outbreak has passed. The penalty for not complying with the quarantine is from one to five hundred dollars fine.

"The following rules should be strictly adhered to: When the owner of a dog notices anything out of the ordinary such a change in disposition of the animal, restlessness, vomiting, a tendency to eat foreign objects, such as bits of wood, matches or fine bones, he should immediately confin-

ILLINOIS YOUTH STOICALLY GOES TO THE GALLOWS TODAY

Myron Corbridge, Convicted of Slaying a Reformatory Guard, Pays the Law's Penalty Today.

Pontiac, Ill., Dec. 15.—Myron Corbridge was hanged at 9:07 o'clock this morning in a dingy auctioneer's tent in the jail yard. The twenty-two year old youth paid the price of the law for murdering "Sol" Jones, a guard over him at the Illinois State Reformatory here. The murder occurred exactly six months ago.

The "child" of the jail, who had spent half of the years of his life in penal institutions, and who would have been twenty-two years old tomorrow, had he lived, displayed a granite like stoicism at the approach of death. Accompanied by a priest, Father J. C. Conners, Sheriff Shugart and deputies, the convicted young man fell in the death march without a falter in his step.

On the scaffold Corbridge read a poem denying his guilt. Followers of the profession said that he was a good size to hang. His body was small and well built and he dropped to the end of the rope without any slip in the arrangements. He was pronounced dead a few minutes later by O. P. Hamilton and J. W. Barden, physicians.

His last wish to see his mother before he died came true. She arrived from Jackville early this morning and the boy was awakened to see her. Corbridge had slept soundly for four hours. Early in the evening he played cards with the guards and at midnight ate a heavy meal, tipping it off with ginger ale and ice cream. This was the first hanging in Livingston County in forty years.

Corbridge was convicted of beating the life from Jones with three feet of gas pipe.

the dog in a safe enclosure where it can not possibly have a chance to bite members of his family, such as children, and await further developments. If he can not be well satisfied in his mind that the dog is not perfectly normal, he had best call a competent graduate veterinarian to make a diagnosis. If, perchance, the dog is violent and the owner finds it necessary to destroy the animal, under no consideration, shoot it in the head but aim at the heart for in shooting the dog in the head you will destroy the brain which is the organ examined by the laboratory experts. The man who has been bitten by a rabid dog or even the man who has permitted the rabid dog to lick his hands is in great danger of contracting the disease and I might add that anyone who has had the opportunity to witness the last hours of a case of human rabies would not think of taking any chance whatsoever but would immediately consult the family physician.

"The Pasteur treatment can now be given by any physician as it is no longer necessary to go to the expense and trouble of attending a Pasteur Institute for this service.

"The hearty cooperation of all dog owners is earnestly solicited to help suppress and control this outbreak which threatens the public health and live stock interest of an entire community."

HYSLOP AT SESSION DISMISSING DR. STATEN

Member of William Jewell College Trustees—Object to Slaten's Radical Beliefs.

Captain Charles Hyslop of Maryville attended a meeting yesterday in Kansas City of the board of trustees of the William Jewell College of Liberty, Mo. At that meeting, Dr. Arthur Wakefield Slaten, professor of Biblical literature and religious education at William Jewell College, was officially dismissed from the faculty.

Today's Kansas City Times had in part the following:

The dismissal was made by a unanimous decision of the board of trustees of the college, in secret session from 10 o'clock yesterday morning until 5 o'clock in the afternoon.

The action of the board followed the expressions of certain beliefs on the part of Dr. Slaten which the trustees deemed inconsistent with his position.

The resolution of the board of trustees, which was adopted unanimously, follows:

"Whereas, serious question has arisen concerning the views of Dr. Arthur Wakefield Slaten, professor of Biblical literature and religious education in William Jewell College, regarding the Bible and the Christian faith, he was invited to appear before the board of trustees to give expression to his views on these matters.

"He stated that he does not believe in, nor subscribe to, the following doctrines which we deem essential to the Christian faith:

1. Pre-existence and the deity of Christ.
2. Infallibility of his teachings.
3. His vicarious death.
4. His bodily resurrection.
5. His mediatorial and intercessory worth.

"He also stated before the board that he does not worship Christ nor pray in his name.

"By reason of these views the board was of the unanimous opinion that he is disqualified longer to remain in his present position as head of Biblical literature and religious education."

Pay Goes on to Next June.

"The board therefore unanimously voted to discontinue his services as a member of the faculty of William Jewell College, to take effect January 1, 1923. The board also voted that the treasurer be instructed to continue the pay of Dr. Slaten's salary to the end of the term for which he is engaged to teach.

"(Signed) Joe P. Jacobs, secretary."

The expiration of Dr. Slaten's contract is June 1, 1923, he said last night.

A few hours previous to the action of the board, so sure was Dr. Slaten of his impending dismissal, he issued the following statement to be published in the event of his dismissal:

"The real issue is far greater than a mere personal one. It is far greater than the removal of a teacher against the protest of the faculty and student body. It is the issue of academic freedom. Shall the teachers in denominational colleges be free to teach what their researches convince them to be true, or shall they be controlled in their teachings by the opinions of non-professionals who assume to know the truth already?

"Suppose the rank and file of the Baptists in Missouri believe that the earth took its present position in six days, and is only six thousand years old. It would be absurd to require the professor of geology to teach this. Mathematics, chemistry, sociology and every other subject must be taught in accordance with the fullest knowledge available, and not merely in accordance with suppositions that chance for the time to be popular, otherwise no grogress is possible.

"A bacteriologist or a surgeon has technical knowledge which in teaching he is bound to assert, whether his conclusions accord with lay opinions or not.

"The same freedom must be granted to teachers of religion. They are in honor bound not merely to repeat parot-like the conclusions of past thinkers, but to think themselves. As leaders they dare not merely shape their teaching to fit the opinions their constituency already hold. That is the mark of the demagogue and the charlatan.

"'Giving the people what they want' is a short-sighted policy of playing safe. What the people at heart want and welcome is the truth, presented in sincerity and tempered by genuine affection."

Rebekah Membership Contest

The following account of the membership contest of Alert Rebekah Lodge, which recently came to a close was written by a member of the losing side:

"The "Bean Contest" is the subject of all Rebekahs since last night. The Turnerites, though losers count themselves winners of a good time. Last night while the Williamsites were sumptuously banqueting in one room and the Turnerites were "eating beans" in another, it was rumored that the banqueters feared the other side were not being true to their agreement of eating "just beans." They proceeded to line up with their dish of beans and toothpick with which to eat them, and march into the banquet room to show them. The banqueters barred the door and refused entrance but somehow captured a "bean eater." He was placed on a high pedestal in full view of the banquet table and while they enjoyed their repast he was only allowed this dish of "beans." Not even a drink of water was given him to relieve his parched tongue.

After suffering much embarrassment and anxiety while they finished their meal, the prisoner was marched back to his own ranks and some accusations were brought against him and his people. While the prisoner was being held the lights mysteriously went out and while in the dark a sugar bowl broke on the table. The prisoner was accused of getting his new shoe on it but it was proven by one of the Williamsites that it was none other than one of their own number reaching for his thirty-second piece of pie and something had to "bust" so it was the sugar bowl.

While the Williamsites were banqueting and making use of all the silverware the Turnerites were partaking of their beans as best they could with toothpicks. They served candy beans for desert. Then they entertained the winning side with a program of songs, sung backward, mixed trios and a quartette of hungry "bean-eaters" devoring a pie left on the banquet table. It was finally shown why the rumor had circulated as to the Turnerites having more than they were allowed. Many of them had gone with baskets well filled with cinders, brickbats, battery cells, ets., for weight and then filled with newspapers and tied to represent a well laden lunch basket.

Mr. and Mrs. Jerry Tebow were invited guests for the evening and Mr. Tebow recited one of his own poems. All pronounced the affair a jolly one and none could decide who were losers. There were about thirty on each side present."

T. E. L. Class

A business meeting of the T. E. L. Mothers' Class of the First Baptist Church was held last night at the home of Mr. and Mrs. Leo Strong on East Third street. Sampson and daughter, Betty, Mr. and Mrs. Ursle Crockett and sons, Junior and Robert Graham, Mrs. Ernest Kessler and daughter, Mrs. May Jones and Mrs. L. L. St. Clair.

INTERESTING PROGRAM GIVEN AT HIGHLAND COMMUNITY MEET

Sixty Persons Attended Program by Pupils and Demonstration on Rope And Knot Work

Sixty persons attended the community meeting held Wednesday night at the Highland School. An interesting program was given under the direction of Mrs. O. K. Busby, teacher, and an interesting demonstration given in rope making and knot tying.

The following is the program given:

Song, What Do We Find in the Manger, by school.

Recitation, Welcome—Paul Richey.

Recitation, A Long Speech—Dale Farrens.

Dialogue, Jog On, Jehosaphat—Daisy Richey.

Duet, Keep Sweet—Forest Appleby and Evelyn Burr.

Recitation, If I Were You—Dale Farrens.

Recitation, Jake Boggles—Harold Holt.

Dialogue, The Lost Trousers.

Song, Away in the Manger, girls' chorus.

The A and B classes were divided into two groups or teams to contest on tying rope knots. The following knots were used: square, bowline, granny, clove hitch, sheep shank and helter tie. After tying each of these knots, one of the pupils gave a detailed demonstration to the audience showing each step in the tying of the knot.

The rope work seems to be one of the most popular phases of the vitalized agriculture work being done under the supervision of W. H. Burr of the College. The parents are interested in the knot tying and making rope, as well as the pupils. In many of these community meetings, interesting demonstrations are being held on practical use. The subject also affords an interesting topic for geography, arithmetic and drawing, in the manufacture and estimating the amount for various uses.

FIFTEEN DIED OF T. B. IN NODAWAY COUNTY IN 1921

Statistics Show Number of Deaths And Death Rates In County and State for Ten Years

Fifteen persons died of tuberculosis in Nodaway County in the year 1921. In the whole state 3010 persons were victims of the disease. The death rate in Nodaway County was 54 and in the state 88. This shows that Nodaway County had less deaths of tuberculosis in proportion to the population than were recorded for the whole state. The death rate was based on a population of 100,000.

These figures were furnished the Missouri Tuberculosis Association by the Missouri State Board of Health.

One of the facts attributed to the check of tuberculosis is the fact that full-time county health officer and county public health nurses are a great assistance in the check of this disease. Nodaway County is one of the counties in the state where such an officer and such nurses are employed.

One of the great needs of the State of Missouri is a state tuberculosis sanitarium for negroes. Many of this race have the disease or are exposed to it and consequently as long as they remain uncured they are spreading it every day.

MOTHER AND 9 YEAR OLD SON FOUND MURDERED IN HOME

New York, Dec. 15—Mrs. Catado and her nine year old son, shot to death and bodies burned, were found by firemen, when their Coney Island home was discovered in flames this morning. Indications point to the fact that the murderer had set fire to the home to cover up his crime. A search failed to reveal any clues. The neighbors say they knew nothing of the family except their names.

New York, Dec. 15.—The bodies of Mrs. Amelita Catado, 30, and her son, Fredicko, 9, were found with their throats cut with a stiletta. Rags and papers and dozens of matches were sprinkled over the bodies to hasten the cremation. A stiletto lay near the bodies of the victims. A general alarm, for the slain woman's husband, a tight wire walker, who has been missing for some time, was put out by the police. Both victims were severely beaten before being killed.

ED. KENDALL COMMANDER OF SETH RAY DAVID POST

Officers Elected for 1923 at Meeting Last Night Which Was Followed by Banquet.

Edward Kendall was elected commander of the Seth Ray David Post, Veterans of Foreign Wars, at the annual election which was held last night at the post rooms. The other officers elected were: Senior vice-commander, Ray O'Grady; junior vice commander, Jack Pennington; quartermaster, Charles Wiles; chaplain, the Rev. Joseph Cooper; surgeon, Dr. R. C. Person, and officer of the day, Roy Mayes.

Two trustees were elected. Theodore Robinson, who has been commander of the post for the past year, was elected a trustee for a period of three years and Robert Garten was elected trustee for two years. The third trustee is Edward Condon, who was elected a year ago.

More than thirty-five members of the post were present at the meeting. Nothing of importance other than the election of officers was brought up at the meeting.

After the election the members adjourned to the Pennington restaurant, where a banquet, served country style, was had.

It was decided that the Veterans would make a contribution to the Welfare Board for the poor people of Maryville and plans were made for the collection of the money for that purpose.

The officers elected last night will take their offices the first of the year and will serve until 1924.
